

GREENLINE™ APPLICATION SOLUTIONS

REDUCE CO₂ WITH GREENLINE FAMILY PRODUCTS
MADE FROM RECYCLED PLASTICS

 greenLine™

 medmix

INDUSTRY 

REDUCE YOUR CO₂ IMPACT WITHOUT COMPROMISING PERFORMANCE

Learn more about MIXPAC greenLine family

At medmix, we think about fully integrated application solutions which meet the highest requirements of both your customers and your environmentally conscious company. As a result, we developed the greenLine systems: the CO₂-saving range based on our well-proven MIXPAC system quality. All dispensers, cartridges and mixers are made from post-consumer recycled (PCR) or post-industrial recycled (PIR) plastics. Discover our greenLine family with the MIXPAC technology you can rely on.

GREENLINE SOLUTION APPROACH

greenLine family solution shown below with the example of the MIXPAC greenLine F- System 400mL 1:1 cartridge set and the MK greenline H283M dispenser.

Widely applicable

The greenLine family is suited for a wide range of industrial adhesive and sealant applications with epoxies and polyurethane systems.

Second life for plastics

Post-industrial and post-consumer recycling enables plastics to be repurposed in our dispensers, cartridges, and mixers. This process aids in reducing your carbon footprint compared to conventional products.

Improved packaging

With the recycled bag and box material you are able to improve your eco performance.

MK greenLine H283M dispenser made with more than 45% PIR plastic

Our contribution to your sustainability

HIGH PERFORMANCE FEATURES COMBINED WITH CO₂ REDUCTION

The MIXPAC greenLine family offers all the advanced technological features you have come to expect from our system approach, along with reducing your CO₂ footprint.

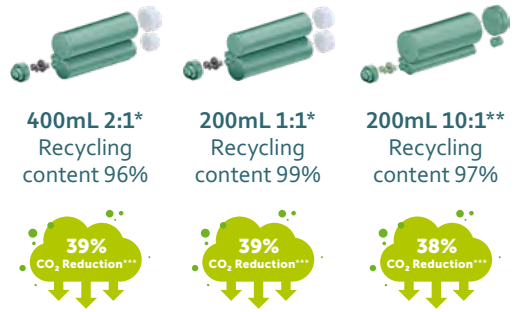

RELY ON

- ✓ Maximum performance
- ✓ System approach with a complete solution from one provider
- ✓ Controlled reproducible processes
- ✓ Ease of use
- ✓ High standards regarding storage stability and transport safety and transport safety

* medmix has decided to calculate the carbon footprint of some of its products and share this information with its business customers. You may use this information for calculating the carbon footprint of those of your products which have been manufactured using medmix products. Any further sharing of medmix' carbon footprint data is not permitted, unless explicitly approved by medmix in writing. This data is provided without any guarantee and any and all liability in connection with the use of this data is herewith explicitly excluded.

GREENLINE™ F-SYSTEM

200ML / 400ML CARTRIDGE SET

400mL 1:1*
Recycling content 96%

Compatibel with MK greenLine H283M

PCR PP
Bayonet ring

Closure cap with patented locking system PCR High Density Polyethylene (PCR HDPE)

PCR PP side-by-side cartridge.
Solid and robust design****

self-venting pistons

PERFORM WITH THE WELL PROVEN F-SYSTEM QUALITY

With the greenLine F-System cartridge sets you perform with a well proven mixing and dispensing solution designed and designed with Swiss technology:

- ✓ Resealable without cross-contamination risk at the outlet
- ✓ High mixing performance
- ✓ High leak proofness and long-term stability
- ✓ Simplified one-step piston insertion
- ✓ Fast and efficient removal of trapped air
- ✓ Easy cartridge positioning and exchange
- ✓ Fully compatible with F-System mixing tips and S-B interface converters: cross-out

Matching mixers

Compatible with a wide range of QUADRO™ and Helical mixing tips.

Matching dispensers

Compatible with manual, pneumatic and battery dispensers recommended for the MIXPAC F-System.

* Cartridge set versions available with short and long nose plug and pistons with and without O-ring.

** Cartridge set available with short nose plug only.

*** PCR PP cartridge set reduces carbon footprint in comparison to standard propylene cartridge set

**** Color deviations possible due to varying PCR content between 96% and 100%. For details please see the technical documentation.
